## Foreword

The Thirty-Eighth Edition of the *Kansas Statistical Abstract* contains data collected through July 2004 for eighteen categories of information: Agriculture, Banking, Business and Industry, Climate, Communications, Crime, Education, Elections, Employment and Earnings, Energy, Government, Housing and Construction, Income, Mining, Parks and Recreation, Population, Transportation, and Vital Statistics and Health.

You will find a number of new tables in this year's edition plus an expanded index. We hope you will find both to be useful tools. We have also included a "Did you know?" fact on each chapter title page, where you can learn interesting bits of trivia and statistics about the Sunflower State.

The *Kansas Statistical Abstract* is available in its entirety in pdf form on the Policy Research Institute's Web site:

<http://www.ku.edu/pri/ksdata/ksah/>

The individual tables are also available in pdf and Microsoft Excel formats from the same site.

Although a hard copy of the *Abstract* is not available to purchase, please feel free to print your own copy or copies. By publishing the *Abstract* in this format, the Policy Research Institute has made the state's foremost collection of statistics available for free to users around the world.

Users may access the document as frequently as needed, print single pages, chapters, or the entire book, or download the file directly to a computer or disk for fast and convenient access. For tips on using the electronic document, please refer to page 12.

We are always looking for ways to improve the *Kansas Statistical Abstract* and we welcome your suggestions and comments. Please address any correspondence to the Policy Research Institute, The University of Kansas, 607 Blake Hall, 1541 Lilac Lane, Lawrence, Kansas 66044-3177, e-mail [pri@ku.edu](mailto:pri@ku.edu) or call 785-864-3701.

## Preface

The *Kansas Statistical Abstract* is compiled and published annually by staff of the Policy Research Institute at the University of Kansas. Four staff members played critical roles in this year's edition: Xanthippe Stevens, information specialist; Laura Kriegstrom Stull, graphic designer; Charlotte Talley, administrative specialist; and Susan Mercer, assistant director. Together they comprise the Editorial Board for the *Kansas Statistical Abstract*.

We thank the following Policy Research Institute staff members: Larry Hoyle, associate scientist; Genna Hurd, research associate; Stephanie Lovett, student assistant; and Zachary Rabold, student assistant. We also thank Mary Mortensen, Indexing Services, Lawrence, Kansas, for professionally indexing the *Kansas Statistical Abstract*. In addition, we appreciate the support of the Kansas Center for Community Economic Development which provided partial funding for data collection.

Many people and agencies provided data for the KSA and we thank them all: Kansas Department of Administration; Kansas Department of Health and Environment; Kansas Department of Agricultural Statistics; Kansas Department of Transportation; Kansas Department of Revenue; Kansas Department of Education; Kansas Department of Wildlife and Parks; Kansas Bureau of Investigation; Kansas Department of Human Resources, Labor Market Information Services; Kansas Geological Survey; Kansas Office of the Secretary of State; Center for Economic Development and Business Research, Wichita State University; Department of Agricultural Economics, Kansas State University; Federal Deposit Insurance Corporation; U.S. Census Bureau; U.S. Bureau of Economic Analysis; and the U.S. Bureau of Labor Statistics.

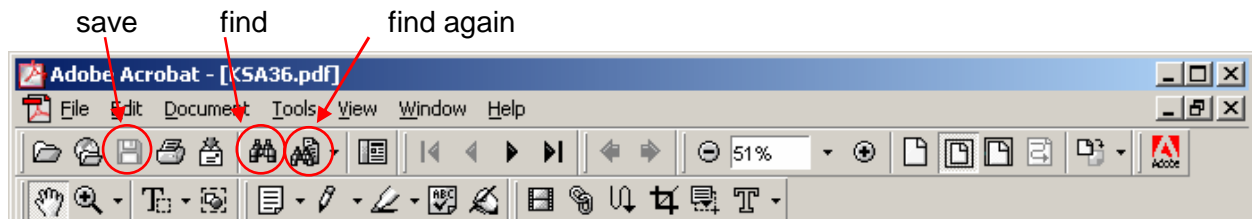

We must also thank Thelma Helyar, former KSA editor, who retired in October 2003 after 27 years of service to the Policy Research Institute. Her dedication to this publication helped establish a tradition of excellence that we strive to continue.

Finally, we hope this edition of the *Kansas Statistical Abstract* will serve as a useful resource. Please let us know if there are ways we can make improvements.

On behalf of the Editorial Board,

Susan M. Mercer

## Tips for Using the Kansas Statistical Abstract

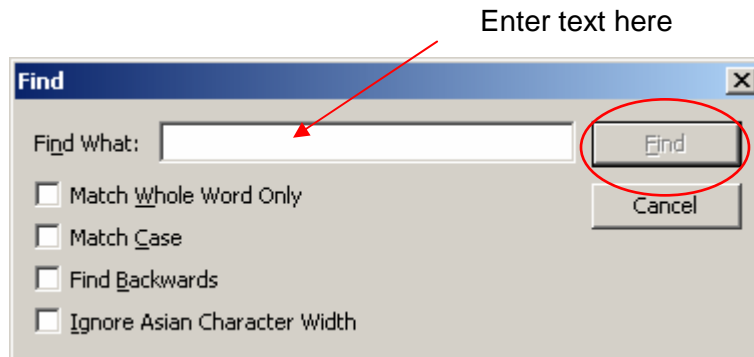

### Accessing the Online Edition

If you have a slow internet connection or access the Online Edition frequently, save the file to your hard drive to avoid downloading the file each time you need data.

To save the Online Edition to your hard drive, access the publication online, click the **diskette icon** (shown above), and specify a location on your computer to save the file. The Online Edition is offered at no cost, so feel free to download or save it as often as needed. **Librarians:** Please feel free to download and save the Kansas Statistical Abstract on all user terminals for fast, convenient access for library patrons.

### Searching for Data

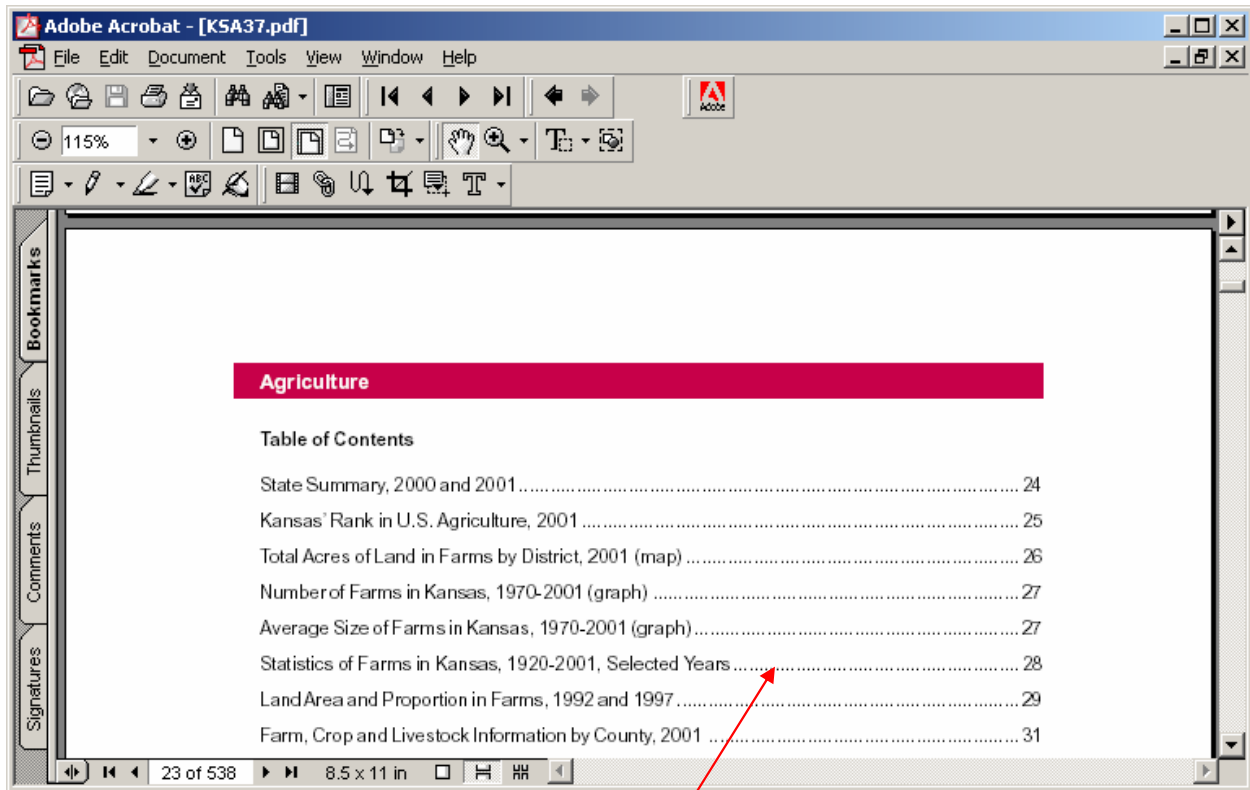

Searching for data in PDF files is made easy using the **find** function. Clicking the **binocular icon** (shown above) opens the **Acrobat Find window** (shown below) and allows you to enter one or more words. After entering your text, click the **Find** button (circled below). The find function then searches the entire document stopping at the first point in the document where it locates your text. If this occurrence is not the page or data you were seeking, you can use the **find again** function (the smaller binocular icon shown above) to find the next point in the document where your text is located.

**Tip:** Practical uses of the find function include entering a city or county name to locate all pages that contain data for that city or county or searching by keyword to find data on a specific topic.

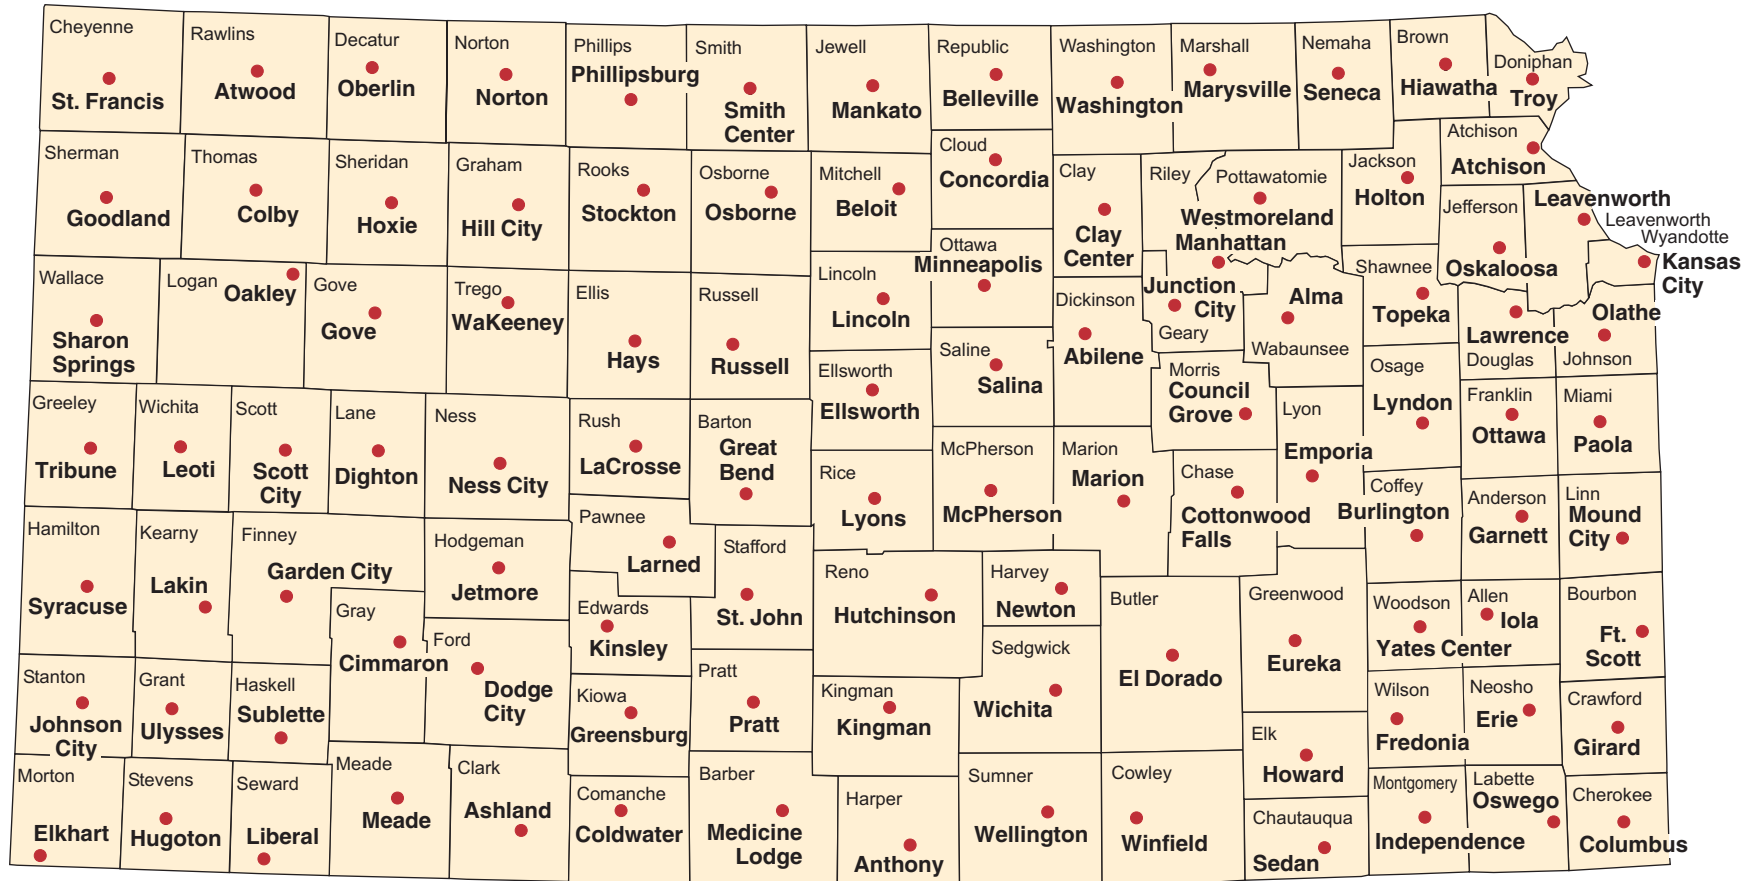

## Table of Contents

The Table of Contents contains links to each individual chapter. These links go to the chapter cover pages located at the beginning of each chapter. The second page of each chapter contains a table of contents for that chapter. The chapter tables of contents have links to each table for easier navigation.

Note: Beginning in 1975, a farm is defined as any place with annual sales of agricultural products of \$1,000 or more.

Between 1959 and 1975 a farm was defined as a place of 10 or more acres that had annual sales of agricultural products of \$50 or more or a place of less than 10 acres that had annual sales of \$250 or more. Prior to 1959 a farm was defined as a place of three acres or more in size with a value of farm products amounting to \$150 or more. Places of less than three acres with sales of \$250 or more were also considered farms.

\*Average Per Farm is obtained by dividing Total Value of All Farmland by the number of farms.

Figures are based on sales tax collections as reported by the KDOR State Sales Tax Collection annual summary report and listed in calendar years. Nominal sales are calculated by dividing the sales tax collection amount from each county by the state sales-tax rate. From nominal sales, real sales are found using the averaged CPI-U for the Midwest region, as reported by the U.S. Bureau of Labor Statistics.

## County Trade Pull Factors, FY 2003

Source: Policy Research Institute; data from *County Trade Pull factors: Annual Report for Fiscal 2003*, K-State Research and Extension, <http://www.agecon.ksu.edu/ddarling/d2002/StudyReports.htm>

Note: Pull factor = County per capita sales tax/state per capita sales tax. A pull factor higher than 1.0 indicates the county is attracting business; a pull factor less than 1.0 indicates the county is losing business.

<sup>1</sup> Census 2000 terminology and categories are used for people reporting one race. Individuals could report only one race in the 1990 census and could select one or more races in the 2000 census; therefore, data on race for 1990 and 2000 are not comparable.

<sup>2</sup> Census 2000 terminology are used for ethnic categories. The corresponding term for "Hispanic or Latino" in the 1990 census was "Hispanic Origin."
