Beginning in 1975, a farm is defined as any place with annual sales of agricultural products of \$1,000 or more. Between 1959 and 1975 a farm was defined as a place of 10 or more acres that had annual sales of agricultural products of \$50 or more or a place of less than 10 acres that had annual sales of \$250 or more. Prior to 1959 a farm was defined as a place of three acres or more in size with a value of farm products amounting to \$150 or more. Places of less than three acres with sales of \$250 or more were also considered farms.

* Average per Farm is obtained by dividing Total Value by Farms.

The SAT was formerly known as the Scholastic Assessment Test and the Scholastic Aptitude Test. Score averages are for college-bound Seniors. Possible scores on each part of the SAT range from 200 to 800. Rankings of states based on SAT scores alone are invalid because of the varying proportions of students in each state taking the tests.

*Writing data are based on students who took the SAT writing section, which was introduced in March 2005.
