The Enhanced Online Edition of the *Kansas Statistical Abstract*, available from the same site, contains the individual tables in PDF and Microsoft Excel formats. Updated tables, maps, and graphs are posted in the Enhanced Online Edition as the data are available and processed. Previous editions of the KSA are available from the same location.

Users may access the KSA as frequently as needed, print single pages, chapters, or the entire book, or download the file directly to a computer or other device for fast and convenient access. For tips on using the electronic document, please refer to page 14.

If you are seeking historical data and cannot locate it within the KSA, please check our Kansas Data Archive at:

We are always looking for ways to improve the *Kansas Statistical Abstract* and we welcome your suggestions and comments. Please address any correspondence to the Institute for Policy & Social Research, The University of Kansas, 607 Blake Hall, 1541 Lilac Lane, Lawrence, Kansas 66045-3129, e-mail ipsr@ku.edu or call 785-864-3701.

Preface

We are pleased to present this 49th Edition of the *Kansas Statistical Abstract (KSA)*. The KSA is compiled and published annually by The University of Kansas Institute for Policy & Social Research (IPSR). The KSA was indexed by Mary Mortensen Indexing Services, Lawrence, Kansas.

The KSA Editorial Board extends a thank you to the many agencies that provided data for the KSA either personally or by making their data readily available on the internet. Sources for each table or graphical representation are noted herein.

We thank Larry Hoyle, senior scientist, IPSR, for his assistance with the KSA. We also thank IPSR student assistant Mary Rachael Stanton, who provided assistance with data entry and table preparation.

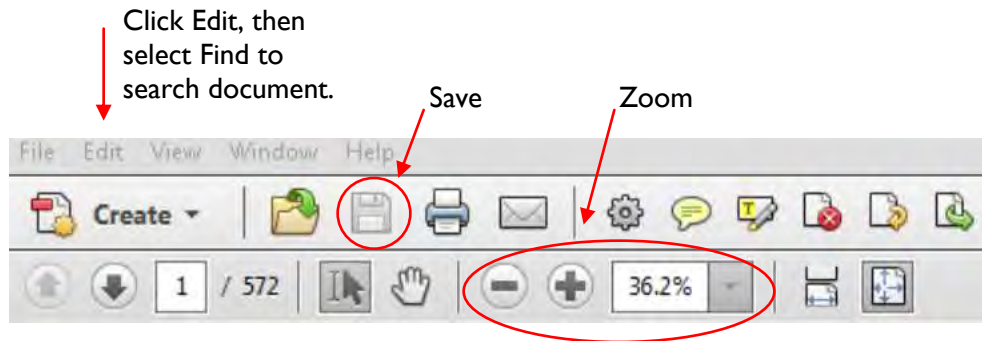

Finally, we hope this edition of the *Kansas Statistical Abstract* will serve as a valuable resource. Please let us know if there are ways we can increase its value.

On behalf of the Editorial Board,

Susan M. Mercer, Project Leader
Associate Director
Institute for Policy & Social Research

Tips for Using the Kansas Statistical Abstract

Accessing the Online Edition

If you have a slow internet connection or access the Online Edition frequently, save the file to your hard drive to avoid downloading the file each time you need data.

To save the Online Edition to your hard drive, access the publication online, click the **diskette icon** (shown above), and specify a location on your computer to save the file. The Online Edition is offered at no cost, so feel free to download or save it as often as needed. **Librarians:** Please feel free to download and save the Kansas Statistical Abstract on all user terminals for fast, convenient access for library patrons.

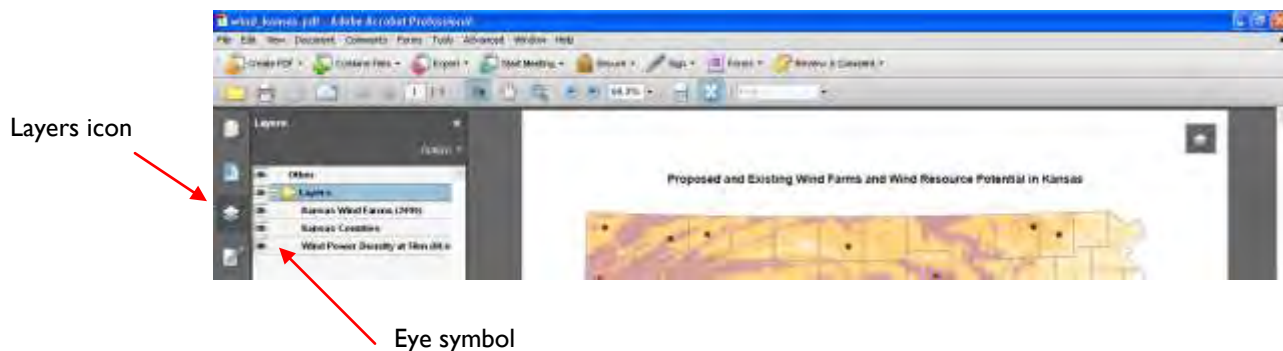

Searching for Data

Searching for data in PDF files is made easy using the **find** function. Launch the find function by clicking Edit then select find. Enter one or more words in the find box and press enter. The find function then searches the entire document marking each point in the document where it locates your text.

Tip: Practical uses of the find function include entering a city or county name to locate all pages that contain data for that city or county or searching by keyword to find data on a specific topic.

Map Layers

Some maps in the *Kansas Statistical Abstract*, as indicated by the  symbol in the upper right corner, provide the option to turn on and off specific layers shown in the map. Click the **layers icon** to view availability and click the **eye symbol** to turn on or off individual layers within the selected map.

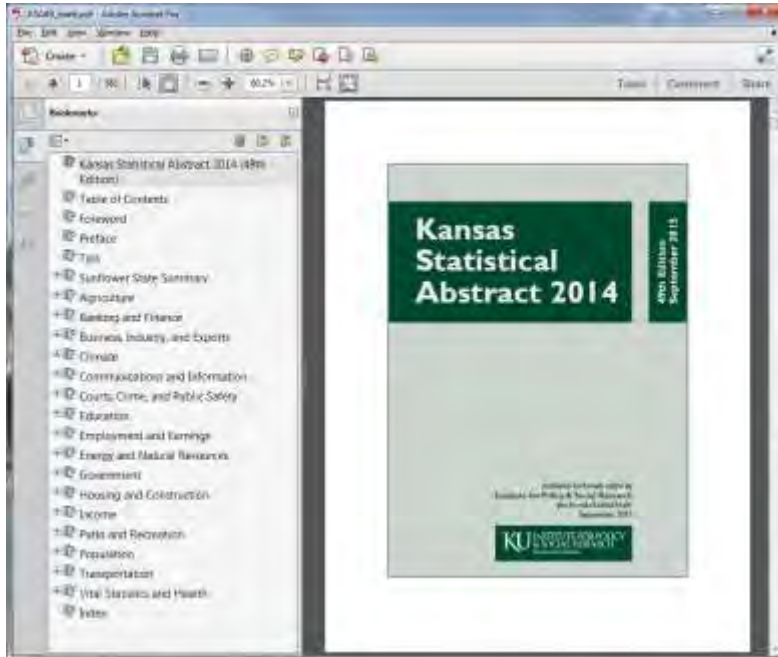

Zoom Tool

The **zoom** tool (shown on previous page) in Adobe Acrobat will allow you to zoom in or out on any page. The zoom in feature may be especially useful on some maps.

Table of Contents

The Table of Contents panel contains links to each individual section or chapter in the *Kansas Statistical Abstract*. Click the + symbol next to any chapter to expand the list of the tables in the chapter. Then click on the title of the table to automatically go to that table in the document.

Limitations of the Data

Some data in the *Kansas Statistical Abstract* are subject to sampling variability; see source for complete methodology and sampling information.

Data from the American Community Survey are associated with a 90% margin of error. We recommend calculating the coefficient of variation to determine the relative amount of sampling error for an estimate and using the following guidelines:

Coefficient of Variation (CV)	Reliability
Less than 12%	Reasonably reliable
12 – 40%	Use with caution
Greater than 40%	Do not use

Calculating the Coefficient of Variation (CV)

$$CV = ((MOE_{ACS} / 1.645) / EST_{ACS}) * 100$$

where MOE_{ACS} is the 90% margin of error and EST_{ACS} is the data estimate.

Beginning in 1975, a farm is defined as any place with annual sales of agricultural products of \$1,000 or more. Between 1959 and 1975 a farm was defined as a place of 10 or more acres that had annual sales of agricultural products of \$50 or more or a place of less than 10 acres that had annual sales of \$250 or more. Prior to 1959 a farm was defined as a place of three acres or more in size with a value of farm products amounting to \$150 or more. Places of less than three acres with sales of \$250 or more were also considered farms.
