Warm Greetings and Salutations:

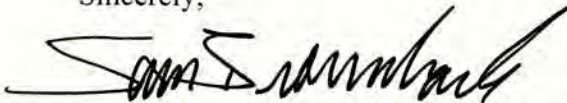

As Governor of the Great State of Kansas, I offer my heartfelt congratulations on the milestone 50th Edition of the *Kansas Statistical Abstract* (KSA).

The first published edition in 1965 began with 81 pages, compiling social and economic data on Kansas and making it easily available to all citizens in a convenient and efficient format.

The KSA has provided this information, at no charge, for the past 50 years. The data mostly comes from public data from U.S. government sources, 19 state agencies and various other institutions. Access to such high quality data makes the KSA a quick go-to source for researchers.

I wish the Institute for Policy and Social Research continued success with the *Kansas Statistical Abstract* for another 50 years.

Sincerely,

Sam Brownback
Governor

January 2016

Greetings:

On behalf of the University of Kansas, I am honored to welcome you to the 50th edition of the *Kansas Statistical Abstract* published by KU's Institute for Policy & Social Research.

The social and economic data compiled in this report — known for its concise and convenient format — for five decades has proven to be informative and invaluable for many Kansans, and it is especially useful and relevant for policymakers.

In addition to the *KSA*, IPSR has a history of producing a wealth of valuable information like this for Kansans. It's also fitting that the publication of the 50th edition of *KSA* coincides with the academic year in which KU celebrates its 150th anniversary. The report is just one more example of the great work the University of Kansas does to serve the state and its citizens.

Sincerely,

Bernadette Gray-Little
Chancellor, University of Kansas

Preface

“As regional economic and social statistics become more prevalent so do the number of sources disseminating such information. The utility of these statistics depends to a great extent on an awareness of the various sources containing them and their accessibility. Often, even under the best of conditions, it is difficult to know if and where particular regional statistics exist.

The purpose of this volume is to present in a concise and convenient format important social and economic data pertaining to the State of Kansas. These data have been obtained and compiled from a number of different sources. Their potential usefulness should be increased as a result of consolidating them into one volume.”

--David L. Huff, Director, Center for Regional Studies, *Kansas Statistical Abstract 1965*

We are pleased to present this 50th Edition of the *Kansas Statistical Abstract (KSA)*. For 50 years, first in print and now on-line, the KSA has provided the people of Kansas accessible social, economic, and demographic data. The KSA is compiled and published annually by The University of Kansas Institute for Policy & Social Research (IPSR).

The KSA Editorial Board extends a thank you to the many agencies that provided data for the KSA, either personally or by making their data readily available on the internet. Sources for each table or graphical representation are noted herein. We thank Laura Stull for designing the cover for the 50th Edition. We also thank IPSR student assistants Mary Rachael Stanton and Arash Kamwand who provided assistance with data entry and table preparation. We acknowledge and thank Mary Mortensen Indexing Services, Lawrence, Kansas, for indexing the KSA.

We also want to acknowledge past and current staff and their significant contributions to the KSA over the years: Laura Stull, graphic design and editing (1977-2015); Thelma Helyar, project management and editing (1979-2003); Xan Wedel, data compilation, visualization, and online publishing (2000-2016); Susan Mercer, project management and editing (2004-2016); and Genna Hurd, editing (2005-2016).

We hope this edition of the *Kansas Statistical Abstract* will serve as a valuable resource. Please let us know if there are ways we can increase its value.

On behalf of the Editorial Board,

Steven Maynard Moody, Director
Institute for Policy & Social Research

The **zoom** tool in Adobe Acrobat will allow you to zoom in or out on any page. The zoom in feature may be especially useful on some maps.

Table of Contents

The Table of Contents panel contains links to each individual section or chapter in the *Kansas Statistical Abstract*. Click the + symbol next to any chapter to expand the list of the tables in the chapter. Then click on the title of the table to automatically go to that table in the document.

Limitations of the Data

Some data in the *Kansas Statistical Abstract* are subject to sampling variability; see source for complete methodology and sampling information.

Data from the American Community Survey are associated with a 90% margin of error. We recommend calculating the coefficient of variation to determine the relative amount of sampling error for an estimate and using the following guidelines:

Coefficient of Variation (CV)	Reliability
Less than 12%	Reasonably reliable
12 – 40%	Use with caution
Greater than 40%	Do not use

Calculating the Coefficient of Variation (CV)

$$CV = ((MOE_{ACS} / 1.645) / EST_{ACS}) * 100$$

where MOE_{ACS} is the 90% margin of error and EST_{ACS} is the data estimate.

Certain types of transactions involving known temporary exits from a correctional facility have been excluded from the body of the table.

*The "No New Sentence" categories include a significant number of cases in which the offender was officially returned with no new sentence, but actually had been convicted of a new felony offense, the date of offense for which was before the return to prison. Documentation for the new sentence did not become available until after the offender was admitted.
