Bank debits are . . . debits to deposit accounts except interbank accounts. More specifically they include debits at reporting commercial banks, member and non-member, to deposit accounts of individuals, partnerships, corporations, the United States Government, and state and local governments. The figures include debits to time and savings accounts, payments from trust funds on deposit in the banking department, and the payment of certificates of deposit. The figures exclude payments of certified and officers' checks, payments in settlement of clearinghouse balances, charges to expense and miscellaneous accounts, corrections and similar charges, and debits to the accounts of other banks, that is, to 'interbank deposits.' . . .
